

Body sculpting & cellulite reduction treatments

Cellulite and resistant fat have different forms and grades and success needs a combination of treatments. At Body Renewal we want our patients to have great results and have thus combined internationally accepted body treatments at a much reduced price in a single treatment session. The full effect of each combined weekly treatment is accumulative & takes approximately 6 to 12 weekly treatments for results to be seen.

Signature Body shaping treatments

3D Body Renewal, our signature body shaping treatment is one of the most effective body shaping solutions available and involves combining 5 clinical applications: Ultrashape, Radiofrequency, Carboxytherapy, Manual massage and Body renewal Lite, a body sculpting eating programme to reduce exercise resistant fat and dangerous intra abdominal fat. If the programme is strictly adhered to, a weight loss of 10kgs and a 10cm circumferential reduction in one month is possible. **From R3 750**

3D Cellulite Solution, our signature cellulite treatment combines the following cutting edge non-invasive cellulite technologies at an affordable price: Carboxytherapy, Radiofrequency, mesotherapy and Manual massage. from 6 to 12 treatments needed. **From R1 100**

3D Skin Tightening, is an effective way to tighten lax abdominal or body skin and combines four skin tightening applications viz Titan, Laser Genesis, Carboxytherapy and Radiofrequency to offer a non surgical, no downtime alternative treatment to tighten loose skin anywhere on the body. **From R3 500**

3D Stretch Mark is the ultimate stretch mark package which combines Carboxytherapy, Laser Genesis, Transdermal mesotherapy and Radiofrequency. **From R1 000**

3 D Mommy Renewal improves resistant fat, stretch marks and cellulite from pregnancy. If the programme is strictly adhered to, 10 to 12 kgs of acquired, resistant fat can be safely lost in 4 to 6 weeks - resulting in a shapely, sexy new you! **From R1 500**

i-lipo Ultra incorporates vacuum massage and infra-red skin tightening lasers to enhance lymphatic drainage, improve blood circulation, and promote skin cell renewal, all while improving the appearance of cellulite. Price varies depending on the duration of treatment. **From R100 – R500**

Body sculpting & cellulite reduction treatments

Body Shaping devices

Ultrashape® is clinically proven to reduce fat thickness and body circumference by using non invasive high frequency ultrasound. A walk in, walk out procedure with no downtime. **From R3 200**

Carboxytherapy is a safe, minimally invasive procedure which involves injecting tiny amounts of CO₂ beneath the skin to improve cellulite. It can improve stretch marks and tighten lax skin due to ageing or post pregnancy. **From R 800**

Lipodissolve/ Injection Lipolysis - also known as Mesotherapy is used to reduce unwanted fat deposits by injecting a natural substance called lecithin to dissolve fat cells. **From R 500 per vial**

Tripollar™ or Accent effectively treat cellulite and resistant fat by using radiofrequency to improve lymphatic circulation and stimulate dermal collagen. **From R 550**

Velashape™ a 4 in 1 treatment, is an FDA approved medical device for the body reshaping, circumferential reduction and cellulite reductions. **From R 900**

Transdermal Mesotherapy with active ingredients for cellulite and body contouring uses no needle mesotherapy to improve lymphatic circulation and improve the appearance of cellulite. **From R 150**

TMT anti-cellulite from Mesoesthetic uses transdermal active ingredients to treat problems of diffuse cellulite. 8 to 10 treatments needed. **From R 850 per treatment**

Manual massage uses knuckling and kneading lymph draining to improve the appearance of cellulite. **From R 250 30mins**

Patricia Clarke wrap is a full body wrap using neoprene bandages to effectively reduce fluid retention, facilitate circumferential loss and improve cellulite. **From R 600**

Titan® Skin Tightening (as recommended by Dr Rey from Doctor 90210) uses infra red light to shrink and tighten skin on any area of the body including the abdomen. **From R2 200**

Slender Wonder uses hCG, a prescription medication, to safely reduce dangerous intra-abdominal and exercise resistant fat whilst sparing muscle mass. If the programme is strictly adhered to, a weight loss of 10kgs in one month is possible. **From R1 500**

iLipo is FDA approved and was recently awarded the "Best Slimming treatment" at "Les Victoires de la beauté" in Paris. iLipo is the leading brand for non-invasive targeted fat reduction and body contouring. For best results 8 biweekly sessions are recommended. **From R500**
