

Anti-Ageing Facial Treatments

PRICE LIST • 2016

renewal institute
incorporating
skin • body • health • brain • sleep
the complete medical solution

Anti-Ageing Facial Treatments

Anti-ageing facials rejuvenate, rehydrate and stimulate old skin cells to revert to their youthful renewal pattern, significantly improving skin quality.

Each anti-ageing facial includes the following:

- Microdermabrasion or Peel
- Anti-ageing add-on option (Laser Genesis, RF, PDT)
- Problem specific mask together with neck massage
- Facial Massage with moisturiser and SPF

Microdermabrasion Facial

From R525

Incorporates exfoliating enzyme and gentle polishing. Eight sessions are recommended at 2-week intervals.

Extraction Peel Facial

From R825

A combination of a salicylic acid peel with gentle steaming and extractions to improve congested skin. Essential for treating pores.

Dermapen

Dermapen skin needling allows for controlled induction of the skin's self-repair mechanism by creating micro "injuries" in the skin that triggers a whole cascade of events resulting in new collagen synthesis. The result is smoother, firmer and younger looking skin down the line.

Dermapen performed by therapists

From R1 350

Dermapen performed by doctors

From R2 000

Anti-Ageing Facial Treatments

Jett Plasma

Jett Plasma rejuvenation treatment is the next generation technology for skin tightening and collagen production. It can be used on any part of the skin for removal of warts to correction of scars. However, the main feature of this treatment is for Blepharoplasty or plasma eyelid rejuvenation around the eyes, particularly for saggy upper eyelids.

Jett Plasma performed by therapist
From R350 (per treatment)

Jett Plasma performed by doctors
From R3 000 (per treatment)
