the complete medical solution

Injectables

It's never too soon to pay the right attention to your skin. There is a whole new generation of non-surgical procedures that allow you to take your skin away from its early retirement with no downtime and highly affordable costs.

Botulinum Toxin

A potent purified protein, when used in small dilutions in a controlled fashion by a skilled physician with extensive experience, relaxes frown lines between the brow, on the forehead and the wrinkles around the eyes. At Skin Renewal, we offer two types of internationally recognised and FDA approved Botulinum Toxins.

Botox™ by Allergan

From R75 per unit

Dysport by Ipsen Beaufort

From R75 per unit

Botulinum Toxin for underarm hyperhidrosis.

From R65 per unit

Botulinum Toxin for perspiration on palms or soles.

From R65 per unit

Botulinum Toxin for bruxism, teeth clenching, TMJ pain and migraines.

From R65 per unit

Botulinum Toxin for facial shaping, reduces a square jawline in females, for an aesthetically pleasing shape.

From R75 per unit

Dermal Fillers

From R3 150

Restylane, Surgiderm and Juvederm are injectable substances containing hyaluronic acid that are designed to improve wrinkles and augment lips. Dermal fillers injected around the eye, chin and cheek and along the jawline, can restore volume loss, folds and sagging.

Injectables

Magic Needle Mesolift

From R4 000

This treatment painlessly brings enzymes, vitamins and cross-linked hyaluronic acid to needy skin. This new form of treatment can reach multiple areas of the face and results are an immediate volume effect that gives your skin the appearance of having bathed in a fountain of youth.

Silhouette Lift™

From R10 000 per treatment

This is an FDA cleared, minimally invasive technique, used to lift and tighten sagging tissue in the mid to lower face. This is a non-surgical alternative to a traditional facelift and is growing in popularity, having been successfully performed over 25,000 times in 55 countries around the world.

PDO Threads

From R750 per thread

Embedded threading is a treatment that involves the use of PDO, polydioxanone sutures, that are injected into the hypodermis of the skin, providing a lifting and smoothing effect. The various thread lengths give the Skin Renewal doctor a wide range of treatment options that dissolve in a natural manner over the course of months while synthesising new collagen production in the treated area.

The Liquid Facelift

From R14 000

A non-surgical alternative to a facelift that involves the use of strategically placed Botulinum Toxin and Dermal Fillers around the face to address concerns such as wrinkles, volume loss, folds and sagging.

Injectables

Jett Plasma

Jett Plasma rejuvenation treatment is the next generation technology for skin tightening and collagen production. It can be used on any part of the skin for removal of warts to correction of scars. However, the main feature of this treatment is for Blepharoplasty or plasma eyelid rejuvenation around the eyes, particularly for saggy upper eyelids.

Jett Plasma performed by therapist

From R350 per treatment (course of 12 needed)

Jett Plasma performed by doctors

From R3 000 per treatment

Dermapen

Dermapen skin needling allows for controlled induction of the skin's self-repair mechanism by creating micro "injuries" in the skin that triggers a whole cascade of events resulting in new collagen synthesis. The result is smoother, firmer and younger looking skin down the line.

Dermapen performed by therapists

From R1 350

Dermapen performed by doctors

From R2 000
