Medical Peels & Exfoliation Treatments

As we age the epidermal cell turnover slows down and our skin becomes dull. The thickened top layer can challenge the skin causing blackheads, rough texture and pigmentation. Potential benefits of exfoliation and peels include fresher, brighter looking skin and better penetration of active ingredients in skin care products.

cells on the top layers of the outermost epidermal layer, allowing for better peeling and exfoliation of the skin. This increased exfoliation increases the turnover rate of the epidermal cells, resulting in a smoother, healthier looking skin. This peel also has an anti-microbial (an agent that kills microorganisms or inhibits their growth) effect on the dermis making it highly effective for acne.

Deeper Chemical Peels (Doctor prescribed)
